

## Our employees: Team work for the success of our customers

“Human Capital” has since long been one of the most important factors in the success of an organization. This applies in particular to a service enterprise like Christiani. We give our employees all the facilities to enhance their abilities optimally; because identifying with the enterprise and motivation for greater achievement are good prerequisites for mastering the challenges in the occupational routine.

As a medium-sized enterprise, we bear special responsibility for our employees. With more than 100 employees, we are one of the most important employers in the region and with an above average vocational training ratio of around ten percent, we facilitate a promising start in professional life for youngsters year after year. All the Christiani employees strive hard with great competence and passion to attain one single goal: To render the best service to our customers.
